PROFESSIONAL SUMMARY

Self-taught Web Developer. I have been studying programming for nearly a year and have acquired skills in **HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, React, Redux Toolkit, RTK Query, Git, GitHub, Node.js, Express, MongoDB,** and **Python.** I can build and deploy full-stack web applications with responsive, pixel-perfect designs. My expertise includes writing clean, scalable, and maintainable code, handling user authentication and authorization, integrating external APIs, and database connections. Check out my portfolio to see examples of my work:
